WASHINGTON, Dec. II.—Certain fea-tures of the new tariff bill have been bractically decided upon already by the practically decided upon already by the Republicans. Chairman Dingley is authority for the statement that the bill will be framed to prevent the use of the bonded warchouse by importers to estable the payment of higher duties as they were used when the McKinley bill was passed. To effect this there would be a cleuse providing that goods in storage in bonded warehouses when the less law goes into effect will pay the rate of that the and not those of the Wilson act in operation when they were entered. Those wehelules of the Wilson law which have proved satisfactory. It is said, will not be disturbed.

The realpracity system may be affected by the establishment of two schedules of articles on which concessions are de-

sired from other countries, one schedule for goods when imported from countries which agree to reciprocity treaties; the other schedule for those which do not. To finish the bill before the 15th of March the committee will be obliged to

The night was dark and stormy. Macco was accompanied by Miro, another important insurgent leader, and others of his staff. They landed near Bunes, and shortly afterwards occurred the encounter with the Spanish troops under Major Cirujeda, resulting, as alleged, in the death of the Cuban chief,

The meeting between the Spaniards and the insurgents was seemingly of an accidental nature, the former having no idea at that time that Macco had suc-ceeded in leaving the province of Pinar del Dia.

Captain General Weyler made a brie address in the course of which he said.
"I have only directed. The army has done all."

There has been another attack by an insurant band on the town of Guan-abacoa, in which the insurgent leader, Angueren, was wounded.

Hall Bros are having a great deal of trouble with the well they are drilling on the Hardman-Livingstone well in the Hiebron field for the Carter Oil Company, on account of bad fishing jobs.

Ramey & Co., are preparing to clean out and shoot their well on the Stephens farm over near New Castle. When this well was drilled in some time ago, it showed up for about a twenty barrel well and since has been holding up at a point near that figure. Since the development of the Benwood field it, was thought best to clean the well out and give it a shot in the hope that it would increase its production, which is altogether likely. The same company will have a well due the early part of next week on Brush run, out in the Hebron territory. This well is located on the Wilson farm and is ahead of developments quite a little and will be of a great deal of importance.
